PROFILE

Software engineer with hands-on experience building CRM systems, AI-assisted automation workflows, and scalable backend integrations. Bridges the gap between technical development and business operations — designing pipelines that reduce manual work, improve lead visibility, and support data-driven decisions. Comfortable owning projects end-to-end, from API architecture to live deployment.

EXPERIENCE

CRM Specialist & Systems Automation Jan 2025 – Jul 2025
Greenergy Development Corporation

- Designed and managed CRM pipelines for lead tracking, customer segmentation, and project data — improving data retrieval speed and reducing duplicate entries across teams.
- Built automated workflows using tools such as Zapier / Make to connect SaaS platforms and eliminate repetitive manual tasks, cutting processing time by an estimated 35–40%.
- Integrated AI-assisted tools into internal reporting and content workflows, enabling faster turnaround on market analysis and business documentation.
- Developed structured lead management and reporting dashboards, giving leadership real-time visibility into pipeline health and conversion trends.
- Conducted data analysis to surface business development insights; findings directly informed resource allocation decisions.

Software Engineer Feb 2024 – Jan 2025
Greenergy Development Corporation

- Developed and shipped full-stack web applications using the MERN stack (MongoDB, Express, React, Node.js), serving internal business operations.
- Built REST API integrations connecting third-party services to internal systems, enabling automated data syncing across platforms.
- Implemented backend automation scripts to replace manual workflows, reducing engineering overhead on recurring tasks.
- Collaborated cross-functionally to deploy and maintain production systems, maintaining high uptime and code quality standards.

IT Support Intern 2022 – 2023
National Telecommunications Commission (NTC)

- Provided technical support for hardware, software, and network infrastructure across departments.
- Assisted in database maintenance and IT documentation, improving system traceability.

CRM & AUTOMATION

- HubSpot / Zoho / GoHighLevel
- Zapier / Make (Integromat)
- n8n / Airtable
- AI Workflow Automation
- Lead Pipeline Management
- Email Marketing Automation

TECHNICAL

- MERN Stack
- Next.js / TypeScript
- Supabase
- REST API Integration
- MongoDB / SQL
- Node.js / Express
- React.js
- OpenAI API / LLM Tools

TOOLS & PLATFORMS

- Notion Slack
- Google Workspace Trello
- Postman GitHub
- VS Code

EDUCATION

BS Information Technology
University of Science &
Technology of Southern
Philippines
2020 – 2024

STEM Track
Holy Cross High School
2018 – 2020
